IUT Annecy

University of Savoie Mont Blanc

The University of Savoie Mont Blanc is a multidisciplinary, medium-sized university (12,000 students) with campuses located in two of the eight counties which make up the Rhône-Alpes region : Savoie and Haute-Savoie. The university benefits from a strategic position near the borders with Switzerland and Italy, and has chosen to make international contacts one of its main development priorities, with constant exchanges of students and researchers. The University of Savoie Mont Blanc welcomes one of the highest number of Erasmus exchange students in France, and is ranked number one regarding the percentage of outgoing students.

IUT Annecy is a faculty within the University of Savoie Mont Blanc, and is located some 30 kilometers away from Geneva. The town lies on the tip of Lake Annecy and is surrounded by mountains, including the Alps.

International Semester in “International Industrial and Business Management” (IIBM)

Class size: 15 to 20
Duration: Autumn semester

Location :

IUT ANNECY,
University of Savoie Mont Blanc, France

Objectives :

To provide international students with an applied grounding in the main fields of industrial management and business management, giving them skills which are essential for the world of work that awaits the students.

They will study a variety of management skills (project management, quality management, supply chain management...) as well as attain an understanding of the international work environment through the emphasis on project/team work and the study of intercultural issues. In addition, the links between these competencies will be emphasized. The use of information systems in these contexts will also be studied.

Requirements for admission :

2 years of university level studies (equal to 120 ECTS)
Good level of English
Open to learning skills closely linked to their main field(s) of study

Student profile or target market :

Students of all nationalities with 2 years of university level studies
Available to students from both a scientific/technical background and a marketing and/or management background
